CAREER OBJECTIVE

Software Engineering graduate (GPA 3.77/4.00) with 3 years of hands-on full-stack development experience. Built and deployed a bilingual AI assistant that reduced a manual reporting process by 90%, along with five deployed applications and commissioned client projects using React, Node.js, FastAPI, Flutter, Python, and PHP. 1st Place, Oman Collegiate Programming Contest 2026.

WORK EXPERIENCE

Freelance Software Developer — Self-Employed, Ibra, Asharqiya, Oman **Sep 2023 – Jun 2026**

- Delivered commissioned software builds for university clients — web applications, mobile apps, database systems, and UI/UX prototypes
- Ran requirements gathering, build, and handover for every project, meeting fixed client deadlines; worked in React, Node.js, PHP, MySQL, Python, Java, and Flutter

EDUCATION

University of Technology and Applied Sciences — Ibra, Asharqiya, Oman **Sep 2022 – Jun 2026**

Bachelor of Software Engineering | GPA 3.77 / 4.00

Relevant Projects

- AI-Powered Virtual Assistant **— Final Year Project (Sep 2025 – Jun 2026).** Bilingual Arabic/English assistant integrated with the university CIMS system using React, FastAPI, Gemini AI, PostgreSQL, and JWT; automated PDF reports and real-time GPA, schedule, and attendance retrieval, reducing manual work by 90%
- AI Digital Art Gallery **— Majan Programmers Club Competition (Feb – Mar 2026).** Responsive 5-page gallery of 16 AI-generated artworks with multi-field search and one-click mood filtering
- Social Media Web Application **(Feb – Jun 2025).** MERN-stack platform with posts, likes, comments, and profiles; JWT authentication secured 100+ accounts at 95% mobile compatibility
- Online Library Books **(Sep 2024 – Jan 2025).** MERN-stack catalogue with search by title, author, and category, plus borrow and return flows holding copy counts consistent under concurrent requests
- Caffeine Cafe E-commerce Website **(Sep – Dec 2023).** PHP and MySQL platform with a 30+ product catalog, secure registration for 100+ customers, and an admin panel handling 200+ monthly orders

Honors

- **1st Place** — 2nd Sub-Regional Contest, Oman Collegiate Programming Contest, Team "Syntax Squad", UTAS Ibra **Apr 2026**
- **3rd Place** — NextGen Coders Innovation Challenge, UTAS Ibra **Apr 2025**
- **Dean's Honor List** — four consecutive years, at Diploma, Advanced Diploma and Bachelor levels **2023 – 2026**

TRAINING

ITSupport& Software Development Intern — Samad A'Shaan Hospital / Al-Jardah Center, Asharqiya, Oman **Feb 2026 – Apr 2026**

- Resolved 80+ technical issues for physicians, nurses, and administrative staff, maintaining daily clinical operations
- Developed and deployed a full-stack patient feedback web application using Python, HTML, and CSS
- Designed 15+ digital assets including posters, ID cards, videos, and presentations using Figma and PowerPoint

SKILLS

Technical Skills: JavaScript | Python | Java | PHP | C++ | SQL | React | Node.js | Express.js | Flutter | FastAPI | MySQL | PostgreSQL | MongoDB | Firebase | REST APIs | Git & GitHub | Gemini AI | Google Cloud AI | Linux | Figma

Personal Skills: Teamwork | Time Management | Working Under Pressure | Problem Solving | Communication | Leadership | Adaptability

CERTIFICATIONS & ADDITIONAL TRAINING

AWSAI Practitioner&GenerativeAIwithGoogleCloud — Udacity — 5 certificates **2026**

Google UX Design Professional Certificate — Coursera — 8-course program | verify **2025**

Cisco Networking Academy — Ethical Hacker, Data Analytics Essentials, Python and C++ Essentials, Linux Essentials (12 certificates) **2023 – 2024**

Java Foundations & Database Programming with SQL — Oracle Academy **2023**

Further training — Huawei ICT Academy, Edraak, and 24 UTAS-Ibra technical workshops | full portfolio of 68 certificates **2022 – 2026**
